Changing Lives

# VISION & MISSION

## MISSION

- ▶ We thrive to provide healthy and nutritious food to poor and destitute every day.
- ▶ To provide underprivileged families with the means to fight hunger and achieve food security.

## VISION

- ▶ All people deserve access to healthy, nutritious and sufficient food everyday.
- ▶ To build a world where every underprivileged family leads a healthy, fulfilling life and no body has to go to bed on an empty stomach.

# Chairman's Message

Dear Donors,

My heart swells with pride to announce that we have successfully spread the light of hope in the lives of underprivileged families affected by the Covid-19 Pandemic.

With the consistent support of our donors, Diya India, under its project "War Against Hunger", has impacted more than 10,000 lives in the last two years.

"War Against Hunger" is an initiative to fight malnutrition and hunger in the country. Under this project, we have now adopted 75 women deserted by their families, 2 Blind Schools and 100 under privileged families affected by the Covid-19 Pandemic. Our goal is to make sure that no person goes to bed hungry.

As the Chairman of the Advisory Board of Diya India, I would like to offer a special note of gratitude to our supporters. We would not have been able to support these ladies and families without their blessings and generosity.

I Thank Diya India Supporters for making a difference in the lives of the underprivileged.

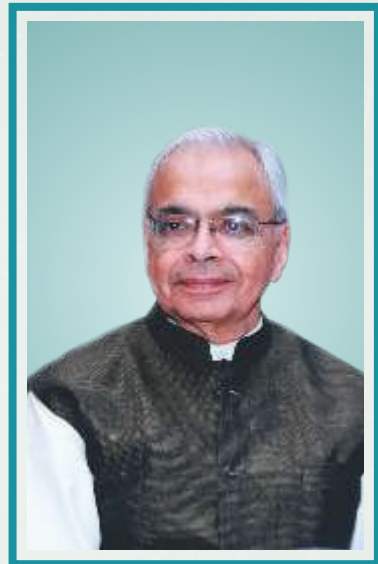

I wish you and your family for Safe and Joyful days ahead.

God bless you all !!

**Padma Shri Dr. S.C. Manchanda**

Senior Cardiologist, Sir Ganga Ram Hospital, New Delhi  
Chairman, Advisory Board, Diya India Foundation

## ABOUT

Under the “War Against Hunger” campaign, Diya India Foundation has stepped up to combat hunger in the capital by providing basic food supplies to the underprivileged families who cannot afford two square meals a day. Every year there is a significant number of people who die due to malnourishment and several kill themselves because they are incompetent to provide food for their families. The idea behind this campaign is to save people from dying due to malnutrition and hunger.

Poor nutrition due to lack of food leads to bodily weakness which in turn leads to greater susceptibility to illness and death. Thus, poor nutrition, as caused by hunger and poverty, is probably thecrippler of poor people and the major cause of death today in young children.

## Objective

According to the Indian Food Bank 1 in 4 children in India is malnourished . India is home to 194.6 million undernourished people, that's three times the entire population of France. Moreover, one-fourth of all undernourished people on the planet live in India. We aim to rid our Country of malnutrition with our efforts.

# Target Beneficiaries

Diya India Foundation provides basic food supplies to 75 women deserted by their families and 100 families living in the slum area of Paschim Vihar in Delhi, Old Age Home in New Rajinder Nagar and the inmates of 2 blind schools in Delhi. A consistent supply of ration makes them healthier and motivated to be able to earn their livelihood.

Access to food has led to fewer malnourished and anemic Indians in 2017 than in the preceding decade. Therefore, we aim at providing food supplies every month to people who earn low or no income to survive.
