Constant Fear
of Losing
their Son
**PLEASE
HELP...****

Rihan

12 Years 9 Months

I recall the horrific day that brought a storm in our lives. One day my son Rihan (12 Years 9 months) woke up with a fever. We got him medicines prescribed from the local doctors, but a couple of days later, his condition worsened.

“Maa, I can't breathe properly,” Rihan cried. Terrified, we rushed him to the hospital. Throughout the way, I kept talking to my son, trying to keep him awake, but as we reached the hospital, his hands slipped from my grip. His eyes were shut and he couldn't talk properly.

I watched helplessly as they rushed my child inside. After doing the tests, the Doctor told us that Rihan is suffering from Heart Problem.

For us, as parents, this is nothing less than a nightmare- watching our perfectly healthy child suddenly inching towards death.

We came back home. We told our neighbour what the doctor said. The neighbour said that on Saturday doctors from Sir Ganga Ram Hospital is coming for the OPD. It's better to show them. This news was a great relief for us. On Saturday when doctors came we took Rihan to the OPD. After checking Rihan the Dr. Neeraj Aggarwal confirmed that he is having a Heart problem. He told us to come to Delhi for further check-ups. We came to Delhi and after doing the tests the Doctor said he needs an immediate surgery and cost of the surgery will be around Rs. 3,50,000/- .But there is no way we can arrange so much of money in so little time.

I just can't see my child in this state. It's so heartbreaking. I am waiting for the day when I will see him jumping and hear his carefree laugh. But I don't even know if that day will ever come.

No matter what we do, we'll never be able to arrange funds for our son's treatment.

We request Diya India Foundation and its kind supporters Please help us.

His life can only be saved with your Help.

We'll forever be grateful.
